

**2009 NSSBC Display Scoring**

Version Date: 8/1/08

ASCE Polar Ice Cap Regional Student Conference

North Pole

35 March 2009

Note that the rules don't give specific information on how to assign display rankings. Each host can devise their own method.

This spreadsheet accepts input from up to six judges who would do three things:

- 1 Individually score the bridge appearance (see "Start Here!!!" sheet)
- 2 Collectively determine if 7.1.2 is satisfied
- 3 Individually determine a score (0-5) for section 7.1.3  
the values are to be input to the cyan colored cells

**If you decide not to use this sheet to compute display scores you still need to use this sheet to run the rankings. Enter your overall display score into one of the judges appearance ranking columns**

Any ties in the final ranking can be broken by a vote of the judges.
